Kovai Vidyashram™
For inspired learning

Kovai Vidyashram is a CBSE School promoted by a team of Psychologist, Academicians and people from Business and Industry to provide world class education. At Kovai Vidyashram, learning happens with passion and joy. Kovai Vidyashram inspires the students by providing best possible academic ambience, benevolent teachers and joyful teaching learning process.

Curriculum

India is one of the cultural pioneers of systematic education in the world. India presented the world the concept of Gurukulam- the Identifying and grooming of young minds in a homely atmosphere under the personal care of a teacher with wisdom. Central Board of Secondary Education (CBSE) and National Council for Educational Research and Training (NCERT), New Delhi, the nodal body for school education in India are formed on the principles of such glorious past. Kovai Vidyashram has reciprocated consciously by selecting the internationally recognised CBSE curriculum. The syllabus taught at Kovai Vidyashram is at par with the best schools of the Country.

Innovative Teaching-Learning Process

The fun and enjoyment of students learning at Kovai Vidyashram starts right at the Kinder Garten level through the participatory Learning Approach and Montessori systems. The SQ4R and Co-operative learning methods are extensively used at higher classes to benefit the students learning process. The above said are proven methods to create interest, curiosity and divergent thinking among young minds. Kovai Vidyashram uses these superior Learner- Centric Approaches to focus on learning with objectives.

Quality Consciousness

Kovai Vidyashram has created a level playing field for all the students by providing a continuous and unbiased system of evaluation. Wherein teachers of two Kovai Vidyashram campuses at Kangayam and Coimbatore set question papers and evaluate the students from the other campus.

Sensitising the Senses

At Kovai Vidyashram we believe in sensitising of the Senses. It's a proven fact that one visual is long lasting than thousand pages of text. A melodic sound gets embedded in our mind forever than a few words! At Kovai Vidyashram we have incorporated these interesting aspects in our curriculum through extensive use of Audio Visual aids. Difficult concepts for young minds are actually transformed to enjoyable experience through our innovative modalities.

Mentoring

At Kovai Vidyashram around 10 to 12 Mentees (students) are attached to a Mentor (Teacher). The Mentor responsibly helps the Mentees to excel personally, socially and academically. An hour is allotted every week for Mentor and Mentees to meet on a regular basis. Students share stories and discuss to understand morality and real life situations. The Mentees are also helped with short films on a variety of social issues. These activities motivate the students to become morally and ethically strong and be a responsible citizen in the future. Personal counselling to the students is also given during such sessions in the areas of academics and relationships at school and home. It is found that these sessions bring dramatic changes among students. The Mentors are in close contact with the parents in developing each Mentee.

Parent Teacher Interaction

Kovai Vidyashram believes that a child's development is the combined effort of the parents, teachers and school. The school facilitates four Parents-Teacher Meetings (PTM) every academic year for the parents and teachers to interact with each other for a better understanding and for the benefit of the students. During the interaction (PTM), both the teacher and parents discuss the academic and co-curricular achievements of the students and improvements required-if any. During this interaction the respective Mentors will also discuss with the parents to follow up their child's behaviour and performance at home.

Fun @ Home

To encourage original thinking, Kovai Vidyashram has designed fun filled activities that help in understanding various subjects at child's own pace. The integrated projects help the students for a better understanding of the relationship among various subjects and disciplines, and its application. Home fun activities are given to improve their thinking and application of concepts that they learn at school.

Practice labs

Kovai Vidyashram has sophisticated labs in the area of Science, Maths and Computer Science. The Science teacher organises an hour of experimentation by the students every week to test their knowledge and curiosity.

'Math Buddy' lab helps the students in understanding Mathematical concepts through practice, demonstration and upgraded softwares which makes it more fun with learning.

The subject Computer Science has its own dedicated computer lab which is used by the students for learning computer science, learnt to use various softwares, apps and doing projects.

Knowledge Centre

Kovai Vidyashram has carefully selected about 8000 interesting books and 20 quality periodicals for the benefit of the students. The students are encouraged to make use of the knowledge centre by issuing them with suitable books on which they write a summary. A further encouragement is the 'Avid Reader' award instituted to a student every month from every class.

Knowledge on the Move

As today it is a necessity to be connected to the Global Village, Kovai Vidyashram has taken care to create a state of the art Wi-Fi facility in the academic block which is beneficial to both students as well as teachers for knowledge up gradation.

Classes with Nature

What better way to open up young minds than to conduct classes in the open! So Kovai Vidyashram has incorporated the concept of conducting at least one class outside the conventional classrooms per week for each subject. This results in free thinking of young minds, better student teacher relationship and student to student relationship.

Enhanced Safety through GPS Monitoring and CCTV

Kovai Vidyashram's all transport vehicles are fitted with safety belts to ensure the safety of students. All our transport vehicles are also fitted with Geographic Positioning System (GPS) instruments for better monitoring. Parents are empowered with user name and password for easy monitoring of school bus in which their child is travelling. An SMS automatically reaches the parents 10 minutes prior to the arrival of the school bus for pickup and drop of the student.

Sports and Games

A Competitive flame is kept alive in the young minds of the students through a variety of Games and Sports activities. Kovai Vidyashram has the required Facilities for Field Sports, Basket Ball, Kho Kho, Volley Ball, Throw Ball etc.,

Extra Curricular Activities

Kovai Vidyashram knows that every student has some inherent talents apart from regular academic skills. To hone such skills students are encouraged to choose, learn and excel in any two extracurricular activities among Karate, Instrumental Music, Classical Dance, Western Dance, Chess, Yoga and Skating offered in the school.

Field Visits

All the children are taken for field visit based on the subject and learning objectives. After every visit children discuss about the learning and prepare report about the field visit, which help them to relate the academics and reality.

National and International Exposure

Kovai Vidyashram organises National and International Tours for Students to gain wide range of exposure. Apart from direct visits to foreign countries, School facilitates international delegates to visit our school and interact with the students and teachers. Students are involved in International Curriculum Activities through British Council in collaboration with foreign schools. This helps the students to understand various Countries' Governance, Politics, Economy, Language and Cultures across the world.
